POSITION DESCRIPTION

Software Developer - Level 2

Unit/Branch, Directorate:	Engineering Development, Integration & Assurance, Technology Directorate
Location:	Wellington
Reporting to:	Team Leader, Engineering DIA
Direct reports:	None
Salary range:	H \$77,711 - \$116,567

Purpose of position: The Software Developer is responsible for the development and integration of specific GCSB and NZSIS applications/systems. The Software Developer also contributes to the lifecycle support of GCSB and NZSIS applications/systems.

Our mission at the GCSB is to protect and enhance New Zealand's security and wellbeing.

Our values are Respect, Commitment, Integrity and Courage

Technology Directorate purpose: Technology Directorate delivers technology for GCSB, NZSIS and the wider intelligence and security sector. The directorate's purpose is to ensure that mission requirements are met today and in the future, targeting relevant strategic objectives. The directorate's work encompasses engineering, data/information management, end-user support, software development, service delivery management, project management, provision of cryptographic infrastructure, and more. The directorate operates in service and capability terms – e.g. attending to policy, process and implementation pre-requisites as much as pure technology or particular systems. The Directorate leads information management for GCSB, including in compliance terms.
